Summer Intensive Course in Geneva:
The Environment, Energy, & the Economy

Open to graduate students and upper-level undergraduate students.

Drawing on leading international experts, diplomats, and representatives of key international organizations, the course provides participants with a chance to think about international perspectives on the challenges of securing environmental protection and fostering economic prosperity. It addresses questions such as:

- Who "owns" the natural environment?
- Do poor countries have the right to pursue non-green development?
- Do rich countries have the right to subsidize green industries?
- How does the need for energy supplies affect countries' environmental and economic commitments?
- How well do governments, international organizations, and the private sector work together in balancing environmental protection and economic growth?

About the Course: PubPol 860.01:

- Rolling admissions with a final application deadline of March 1, 2019
- When: Monday, May 27- Friday, May 31, 2019
- 3.0 Academic Credits
- Cost: $1,500
- Includes some meals and networking events
